

The “C” of **Cplus** denotes **Construction, Contract & Claim**.
The “**plus**” evokes our inventive and creative approach
in delivering our professional services to clients.

The Creative Challenger

Cplus International Co., Ltd. is a consulting firm specializing in Contract Risk Management and Claim Services for global construction projects.

Through our strongly qualified in-house consultants equipped with extensive international experience and expertise, **Cplus** will assure you successful Contract Risk Management for your projects no matter where they are around the world!

The “**C**” of **Cplus** denotes Construction, Contract and Claim.

The “**plus**” evokes our progressive, inventive and creative approach in delivering our professional services to clients.

Welcome!

Cplus International Co., Ltd. (**Cplus**) is a consulting company specializing in construction contract and risk management with its head office located in Seoul, Korea. Established in 2005, **Cplus** has delivered expert services to engineering & construction companies, public corporations and governments for diverse projects around the world.

With limitless competition and rapidly changing circumstances in the domestic and global construction markets, construction company needs to stay highly competitive for profit generation through effective contract risk management. There is no doubt in my mind that a contract risk management by a competent expert group is far more important than the expansion of overseas business without careful consideration of company's capacity.

Since **Cplus** is a pioneer in Korea in the field of construction contract and risk management, our clients in need of such expertise have selected **Cplus** as their company of choice for more than 250 projects in over 40 countries for the past 17 years. **Cplus** will lead your company to be more competitive and profitable with a best practical and viable solution beyond your expectation.

Hyun Hak-Bong
CEO and President

Specialized Fields of Business

Specialized Fields of Business

- Contract Risk Management Services
- Construction Claims Consulting Services
- Construction Dispute Resolution Services
- Contract Administration Workshop
- Training/Education Programs
- Tender Schedule, Baseline Programme, Delay Analysis
- Reliability Review on Estimated Cost
- Other Expertise Available through the **Cplus** Networks

Contract Risk Management Services

Cplus offers extensive contract risk management services to construction owners, contractors, subcontractors and agents around the world.

Cplus uses its wealth of experience and knowledge to identify potential problems on a project before a negative cost or time impact is incurred to our clients.

Cplus proactively analyzes each issue and recommends an appropriate action to our clients through various preventive or corrective actions, or through long term strategic planning.

Cplus Risk Management Services include, but are not limited to, the following:

- Pre-tender Risk Analysis and Summary Report,
- Tender preparation assistance and emphasis of risk factors,
- Tender negotiation with contractors, vendors and clients with all summarized report that covers a final tender risk analysis,
- Post-tender and pre-Contract evaluation and comments on Conditions of Contract,
- Daily or case by case risk analysis of project contractual issues,
- Change Order/Variation evaluation, development, presentation and negotiations,
- Project close out assistance including risk analysis for the issues related to the warranty/maintenance periods.

Construction Claims Consulting Services

Cplus Claims Consulting Services include, but are not limited to, the following:

- Issue analysis and establishment of claim causation
- Schedule delay and productivity reduction analysis and reporting
- Claims for monetary and time damage value assessment
- Claim case strategy
- Claim preparation, substantiation and presentation
- Claim negotiation
- Training on the claim procedures and mitigation measures

Construction Dispute Resolution Services

As a leader and innovator in the field of construction claims management, **Cplus** has participated in thousands of construction claims and brought the successful resolutions.

Cplus provides necessary supports and recommends the most reasonable approach to the client that will get the best settlement value the client can expect in dispute resolution.

Cplus Dispute Resolution Services include but, are not limited to, the following:

- Case/contract analysis and strategy recommendation
- Alternative Dispute Resolution (ADR) recommendations
- Arbitration (or ADR) coordination and member recommendation
- Arbitration (or ADR) substantiation documentation and presentation of same litigation support
- Training of dispute mitigation and prevention methods

Training/Education Programs

Cplus offers training and education programs for individuals or firms that want their personnel to gain expertise in construction contract/claims management.

Reliability Review in Estimated Cost for Statutory Audit

During the statutory audit process on the construction companies, expert appraisal was required to determine the appropriateness of the remaining budget of the construction projects. Cplus performed a number of reliability verification services for estimated costs in cooperation with the global accounting firms such as PWC, KPMG and RSM.
